Cap-Haitien, Haiti

HELP!!! AU SECOURS!!!

When the conditions in Haiti were already so desperate, how can the Haitians withstand such catastrophe? Often, the grass roots organizations can give the most direct relief. **Sonje Ayiti** "Remember Haiti" is a 501(c)(3) organization headquartered in Atlanta and recognized by the Haitian government as a local non-profit agency operated in Limonade, Haiti. Our motherland is pleading for help for those that have been affected by this Disaster.

Many of you have inquired about how best to help in this unfolding humanitarian crisis and we are asking that you consider a few factors in your giving, keeping in mind that the needs of Haiti are both immediate and ongoing:

Sonje Ayiti is ready to meet the needs of those affected by this tragedy and is counting on your support.

- Sonje Ayiti has decided to put together earthquake relief kits immediately to be distributed in regions impacted.
- In the long-run, ongoing relief efforts are best handled by established, grassroots organizations. These organizations are flexible, have a low overhead, and have earned the respect and trust of the community they serve
- Please visit www.sonjeayiti.com for online donations or send checks or money orders at Sonje Ayiti, P.O. Box 83, Grayson Ga, 30017.

Thank you for expressing your concern and support for our brothers and sisters in Haiti.

Sincerely,

Gabrielle Vincent,
President, Sonje Ayiti
